

MERTOĞLU®

PANDEMİ SONRASI
SOSYAL HAYATA DÖNÜŞ

RETURN TO
SOCIAL LIFE
AFTER THE
PANDEMIC

Belirsizlik ve bilinmezliğin had safada olduğu bu süreçte, geleceğe yönelik tahminlerin bir kısmı iyimserken, bir kısmı ise oldukça düşündürücü. İlk şoku atlatma evresinde, yeni bir başlangıca hazırlanırken, artık oldukça net olarak ortaya çıkan bir gerçek var; bundan böyle farklı bir dünyada yaşayacağız.

Önümüzdeki dönemlerde de başka salgınlar bizimle birlikte olmaya devam edecek bu nedenle bundan sonra yaşam şeklimizi farklılaştırmamız ve alışkanlıklara adapte olmamız gerekecek.

Temelde yıllarca sürececek olan değişimlere, haftalar içinde adapte olmaya başladık.

Covid-19 süreci, gelecekte yepyeni gelişmelerle birlikte daha önce karşılaşmadığımız sorunların da olacağını bize tekrar hatırlattı. Bu nedenle, bireyler açısından, yeni dünyada yer edinme, bu dünyaya hazır olma ve fark yaratma açısından; yeni teknolojilere ve koşullara hızlı ayak uydurabilme, adapte olabilme, hızlı algılayabilme ve belirsizliklerle başa çıkabilme yetenekleri daha da önem kazandı.

Hem yaşam, hem çalışma şekillerinde milyonların hayatını değiştiren bu süreç; kişisel ilişkilerden iletişim stillerine, sosyal mesafe ve davranış algılarına uzanan birçok olgunun radikal bir şekilde değişime uğramasına sebebiyet verdi.

Mertoğlu Kent Mobilyaları olarak, yeni dizaynlarımızla, sizlerin en rahat ve sağlıklı bir şekilde sürece adapte olmanıza katkıda bulunmak istedik.

Sağlıklı günler dileğiyle,

While uncertainty is remaining, some experts make positive predictions while others make more pessimistic ones. We are now getting over the first wave and we are preparing to a new start, but one thing is for sure, from now on we will live in a different world.

In the upcoming periods we will continue to live with other pandemics, therefore we need to change our way of life and our habits needs to be adapted. Changes which would take years to adapt have been implemented in weeks.

Within this pandemic period we have noticed that there will be new developments which we didn't come across before.

Therefore it has become more important for individuals to take place, to be ready and to make the difference in this new world.

This will be thanks to abilities such as overcoming the uncertainties and to adapting, fast perceiving and to keep up with the new technologies and the changing conditions.

This period has radically changed both the way of living as well as the way of how millions of people work; from personal relations to communication theories and the perception of social distance and behavior.

As Mertoğlu, we wish to contribute with our new designs to help you getting comfortably and healthy adapted to the new conditions.

Wishing you healthy days,

Kullanılmış Maske Eldiven Kutusu/Used Masks and Gloves Bin

Covid-19 salgının ardından maske ve eldiven kullanımı artarken, kullanılmış birçok maske ve eldivenin sokaklara, insanların yaşam alanlarına atılması, toplum sağlığı için tehlike yaratmaya başladı. Kullanılmış maske ve eldivenler kapalı çöp kutularına atılmalı.

While the use of masks and gloves have been increased due to the pandemic, a lot of masks and gloves have ended on the streets, among the living spaces of people. As this leads to health threats of the living people, used masks and gloves should be thrown in closed bins.

Sosyal Mesafeli Banklarımız/Our Social Distancing Benches

Covid-19 salgını dolayısıyla ön planda tutulmaya başlanan sosyal mesafenin korunması kuralına uyum sağlayacak ve sadece iki kişinin oturabileceği şekilde dizayn edilen ve orta bölümü boş bırakılan yada şeffaf bir bariyerle birbirinden ayrılan banklarımız, sizin sağlığınızı tehlikeye sokmadan daha rahat bir şekilde sosyalleşmeniz için tasarlandı.

To adapt the social distancing rule which has been prioritized due to the Covid-19 virus, we have designed benches which only can be seated by two people. The middle part has been leaved empty or has been separated with a transparent barrier. Thanks to these designs we aim to help you socialize without endangering your health.

Market, Hastane, AVM, Her Yer Tertemiz/ Clean Shops, Hospitals, Shopping Malls and Everywhere

Dezenfeksiyon bir nesneyi veya ortamı enfeksiyon kaynağı olmasını önleyecek düzeyde mikroorganizmalardan arındırma işlemidir. Dezenfeksiyon; cansız yüzeylere ve canlılara uygulanabilir.

Hastanelerde, marketlerde, AVM'lerde, havaalanlarında kullanılmak üzere çeşitli dezenfeksiyon sistemleri geliştirdik.

Disinfection is the process whereby an object or environment has been cleansed from microorganisms which can lead to infections. Disinfection can be applied to lifeless surfaces and creatures.

We have developed various disinfection systems which can be used in hospitals, shops, shopping malls and airports.
